REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

A frying apparatus for frying a food product including a container having an entry side and an exit side, a least one conveying device for conveying food product from the entry side through the container to the exit side and at least one submerging device being located above the conveying device, the submerging device being able to move between and out-of-use mode in which it is in a raised position and an in-use mode in which it is in a lowered position and is operative to hold the food product down on the conveyor belt, whereby a liquid at a pre-determined elevated temperature is held in the container, the conveying device for carrying food product is located underneath the surface of the liquid, and the submerging device is in the in-use mode with the food product carried on the conveying device being held down under the surface of the liquid by the submerging device thereby preventing the food product from floating to the surface of the liquid, ensuring effective and consistent frying of the food product is not taught nor fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy F. Simone whose telephone number is 703-
